

CONTEMPORARY CALGARY ART STUDIO

At Contemporary Calgary, students and teachers are immersed in a dynamic arts-focused space that has lots of big ideas to explore!

Housed in the Centennial Planetarium, an iconic example of Brutalist architecture, Contemporary Calgary offers endless possibilities for community-based experiential learning. Frequently-changing exhibitions, distinctive interior spaces, and dedicated gallery staff ensure that each day at the gallery is unique, engaging, and an opportunity to understand the transformative power of the visual arts.

Our exhibitions are a great jumping off point for the Contemporary Calgary Art Studio experience. Students can start their explorations with topics such as artistic media and methods, storytelling through imagery, and the visual expression of complex ideas. Endless possibilities follow: students can make their own artworks in our

workshop, put on a play in our theater, enjoy a short film in the dome, explore architectural styles and approaches, and engage with contemporary Indigenous art through our ongoing Indigenous residency and mentorship program, Ksahkomiitapiiks.

With countless topics to explore, a week spent at Contemporary Calgary will help students develop and build capacity for critical thinking, close looking, and creative expression.

We look forward to welcoming you to Contemporary Calgary Art Studio for our pilot year with Campus Calgary!

Contemporary Calgary is located at 701 11 St SW, immediately adjacent to the Bow River and accessible via the Downtown West-Kerby Station.
